

REMARKS

With the entry of the above amendments, claims 1-3, 5-8, 10-15, 18, 24-26, 28 and 31-34 are pending. Claim 18 has been amended to claim priority from claim 6. Applicant respectfully submits that no new matter has been added by the amendments

Applicant has also amended the specification of the application. Applicant has amended the claim for priority. Paragraph 0050 on page 10-11 of the Specification was amended to remove reference to the electrical connection wires 56 which were inadvertently listed in the specification. Applicant respectfully submits anyone skilled in the art would understand that the battery unit, microcontroller, circuit board, RF transmitter, magnetic sensor, momentary switch, electric inclinometer, liquid crystal display, clock oscillator, and voltage regulator are electrically connected to each other. Applicant inadvertently included the drawing designation “electrical connection wires 56” which were not shown in the attached drawings. Applicant has also amended paragraph 0055 on page 12 of the Specification to correct the figure designation of the onboard battery 44. Applicant has also amended paragraph 0062 on page 16 of the Specification to correct the figure designations displaying the display module as FIG.’s 15-21. The applicant has also amended paragraph 0063 on pages 16-17 of the Specification to indicate that the physical and circuit connections of the display module are detailed in FIG.’s 15-18 and FIG.’s 20-21. Applicant respectfully submits that no new matter has been added by any of the amendments of the Specification.

Applicant respectfully submits that pending claims are in condition for allowance and, therefore, respectfully request an early notice of allowance. The Examiner is invited to contact the undersigned at the number indicated below with comments or questions about the application.

Respectfully submitted,

Jeffrey D. Peterson
